This Declaration of Conformity is issued under the sole responsibility of the manufacturer. The device covered by the present Declaration is in conformity with all regulations or directives below, including compliance with related Essential Requirements and General Safety and Performance Requirements.

1. Object of the declaration:

| | |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Name | Avalon Fetal Monitor |
| Product Type | Fetal/Maternal Monitor |
| Intended Purpose | <p>The Philips Avalon FM20 (M2702A), FM30 (M2703A), FM40 (M2704A), and FM50 (M2705A) fetal/ maternal monitors are intended for:</p> <ul style="list-style-type: none">• noninvasive monitoring of fetal heart rates and movements.• noninvasive monitoring of maternal heart rates, maternal pulse rates, uterine activity, maternal noninvasive blood pressure, maternal oxygen saturation, and maternal temperature.• invasive monitoring of direct fetal heart rate, intrauterine pressure, and for displaying and recording of fetal and maternal electrocardiogram (ECG) (FM30 and FM50 only).• displaying, storing, and recording patient data and parameter values, and for generating alarms from fetal and maternal parameters.• transmitting patient data and parameter values to a patient information and surveillance system.• use by trained health care professionals.• use in antepartum testing areas, in labor and delivery rooms, and during postpartum recovery in the hospital environment. They are not intended for use in intensive care units or operating rooms.• monitoring in a bath or shower (Avalon CL cableless transducers Toco⁺ MP, Ultrasound, and ECG/IUP only).• transport situations in healthcare facilities, for healthcare facilities outside hospitals, such as doctors' offices, and for use in private households (FM20 and FM30 only). <p>Avalon Fetal/Maternal Monitor FM20: Indicated for use by trained health care professionals whenever there is a need for monitoring of the physiological parameters</p> |

The object of the Declaration described above is in conformity with the following regulations:

| | |
|--------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| EU Directive | Council Directive 93/42/EEC of 14 June 1993 concerning medical devices amended up to and inclusive of Council Directive 2007/47/EC (MDD) |
| Device Risk Classification | Class IIb based on Annex IX and Rule 10 |
| Conformity Assessment Path | Annex II excluding (4) of the MDD Council Directive 93/42/EEC concerning medical devices as amended by 2007/47/EC. Products to which this declaration relates are in conformity with Annex I Essential Requirements of the European Directive: Council Directive 93/42/EEC concerning medical devices as amended by 2007/47/EC. |
